## 9. Scope of Work

### 9.1. Brief overview

A) Internet in India is largely mobile internet with a high percentage of them on 2G and 3G while RailTel had sought to bridge the Digital Divide. It was inadvertently bridging the experience divide of the internet where millions of users experience fast access to internet for the first time.

Usage statistics show significant pent-up demand for connectivity, amongst train commuters in stations covered by the station Wi-Fi project who have used the service. With unconstrained, free high-speed Wi-Fi connectivity, an average user consumes 343 MB in an average 30-minute data session. This is much higher than what we observe on an average 3G connection in the country currently, around 30MB per user per day. It is also important to note that the usage of 300MB using the Station Wi-Fi is just for a 30-minute session, compared to the usage of 560MB for a Reliance Jio user for an entire day.

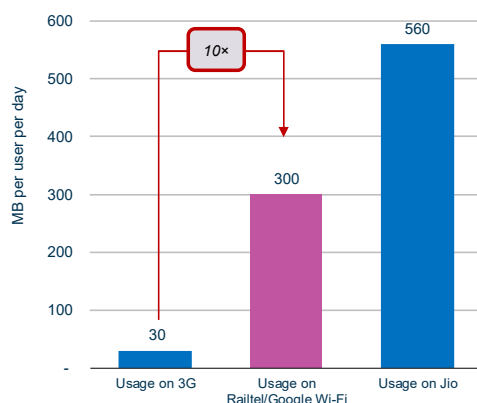

Figure: Internet usage on unfettered fast Wi-Fi compared to Jio and 3G users in India [Source: Analysys Mason, 2017, Ipsos Connect]

It is estimated that 20000 users everyday are first time users of the internet and there are very heartwarming stories of how the station Wi-Fi has helped to transform lives.

A porter clearing Kerala public service commission examination studying at station using RailWire Wi-Fi, a mother who is an auto driver by profession visiting railway station for using Wi-Fi to update her knowledge to teach her son, Cancer patients from economically weak section coming to Mumbai station to use Wi-Fi for entertainment, a Fashion Designing student using station Wi-Fi to sell her creation or a cafeteria manager at Bareilly using RailWire Wi-Fi to keep track of trains for planning food preparation for his café to offer faster service and reduce wastage – RailWire Wi-Fi is surely helping hundreds of people to fulfill their dreams.

#### **B) PM-WANI (PM WiFi Access Network Interface)**

1. In line with GOI's initiative to facilitate easy to use cost effective broadband internet services & generate micro entrepreneurship through public WiFi hotspots, RailTel announced pilot launch of PMWANI based access of its Public WiFi services across 100 Railway Stations spread out in 22 states. Presently android based Mobile App (Wi-DOT) can be used to access WiFi network; this would be in addition to access WiFi at these stations through conventional method of selecting RailWire SSID.
2. WiFi, the world over is adopted to complement LTE based broadband access. Access to broadband internet to masses is still limited due to non-ubiquitous coverage of LTE. Public WiFi hotspots hold an important place in last mile connectivity for delivery of broadband internet access for not so privileged users.
3. PM-WANI is ambitious program to facilitate users to access all silo WiFi networks through any WANI complied Mobile App which would help to proliferate broadband usage by masses. PMWANI based access will facilitate ease of use through one time KYC to avoid OTP based authentication every time, one wants to access public WiFi.
4. RailTel's WiFi network is now spread across 6102 Rly Stations across India and has 17,792 WiFi hotspots, and is still growing. RailTel offers free WiFi for first 30 minutes at Railway stations, beyond which paid WiFi usage can be bought through online digital channels.
5. RailTel is playing anchor role in Public WiFi eco system and planning to extend its WiFi footprints beyond Rly Stations by leveraging its existing partnership with more than 7500 last mile service providers (who are delivering FTTH based broadband services) to establish WiFi hotspots in internet hungry areas, by becoming PDOs (public data office). In addition to this RailTel would partner with other PDO aspirants to take public WiFi to Bus Terminals and Rly hospitals also.
6. This initiative has potential to help digital India mission by broadband usage at very low cost for the people who can't afford independent broadband connections. RailTel would complete making all 6102 Railway Stations PMWANI complied before 30th June.
